

Impact Management Dashboard

USER MANUAL

Defined User Roles

Field Workers

Responsibility: Data Submission. Ground-level volunteers who input raw training and placement counts using a mobile-friendly form.

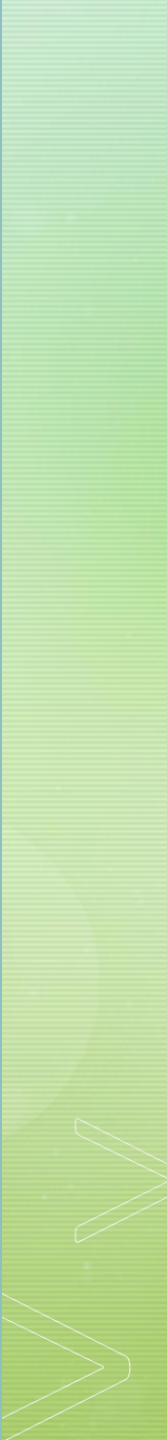

NGO Managers

Responsibility: Strategy & Oversight. Leadership teams who use the dashboard to identify district-wise performance gaps.

PART 1

DATA INPUT FORM

Step 1: Accessing the Input Form

- Workers can access the **Field Data Collection Form** via any smartphone. The link is persistent and does not require a high-speed connection, making it ideal for rural Uttarakhand operations.
- Click on the link below to access the form

[Form link](#)

Step 2: Data Submission

Worker ID

Enter your unique Field worker ID (e.g. FW_001) to ensure your efforts are tracked.

District Selection

Select your assigned district from the dropdown: Haridwar, Dehradun, Roorkee, or Rishikesh.

Raw Counts

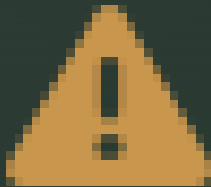

Enter total number of youth trained, Amount spent and the number of youth who secured jobs.

NOTE: Incase form shows you an error, check if the data entered is valid or not. (Validity Conditions will be shown in the error message)

Step 3: Ensuring Data Quality

- **Whole Numbers Only:** Beneficiary and Placement counts must be whole numbers. No text or decimals allowed.

- **Logical Constraints:** The “Successful Placements” count must always be less than or equal to the “Beneficiaries Served”.

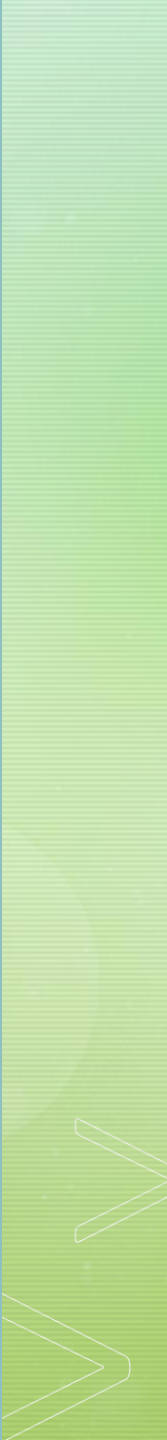

- **Financial Accuracy:** Budget must be entered as a raw number (e.g., 50000 instead of 50k) to ensure correct calculations.

PART 2

DASHBOARD

Real Time Dashboard

NGO Managers can access the Real Time Dashboard
Using the link below
